Executive Vision

We're building a **three-layer ecosystem** that transforms how technology and manufacturing happens in emerging markets. Not API consumers—architects of their digital future.

Core Promise: Empowering emerging markets to build, own, and manufacture their own AI infrastructure. Revenue and equity stay local, with global partnerships amplifying impact.

Three Strategic Layers

Layer 1: Innovation Pipeline

Silicon Valley HQ + Chris Peralta network brings AI startups, venture capital, and mentorship to emerging markets.

- ✓ 500+ AI founders engaged
- ✓ \$50M+ capital raised Y1
- ✓ Global investor network

Layer 2: AfricaBiz Infrastructure

Enterprise infrastructure, consulting, government relationships, and AI research labs serving 50+ partners.

- ✓ Dedicated consulting support
- ✓ Virtual machines & tools
- ✓ Government partnerships

Layer 3: Manufacturing + Equity

Distributed manufacturing hubs where partners own equity and capture manufacturing upside.

- ✓ 5 manufacturing hubs
- ✓ Co-investment model
- ✓ \$21.8M Y1 revenue

363%

Year 1 ROI for Active Partners

AfricaBiz: Infrastructure & Consulting Core

What AfricaBiz Provides

Virtual Infrastructure

3 Tier-2 machines with full platform integration

- ✓ AfricaBiz Operations (4vCPU, 16GB)
- ✓ Global Barcodes & Logistics
- ✓ AI Female Union & Research

Consulting Services

Dedicated partner success manager

- ✓ 30 hours/month consultation
- ✓ Bi-weekly strategy sessions
- ✓ Quarterly executive reviews

Government Relations

Ministry partnerships & liaisons

- ✓ Health ministry access
- ✓ Identity verification systems
- ✓ Trade & industrial partnerships

Research Lab Access

Cape Town AI Research Lab (8,000 sqm)

- ✓ 40 H100 GPU servers
- ✓ Conference center (400 seats)
- ✓ Training programs

Training & Certification

AI education & team development

- ✓ 16-hour onboarding
- ✓ 3-tier certification programs
- ✓ Executive briefings

Community Access

500+ AI startup ecosystem

- ✓ Monday coaching sessions
- ✓ Friday deep dives
- ✓ Partnership opportunities

AfricaBiz Pricing & Terms

One-Time Setup: \$2,500

Includes machine provisioning, 16-hour training, onboarding, African strategy workshop, ecosystem integration

Monthly Consulting: R200,000 (~\$11,100 USD)

Dedicated partner success manager, 30 hours consultation, bi-weekly sessions, priority support

Monthly VMs: \$6,000 (3 Tier-2 machines)

Standard pricing for 3 machines: \$7,500/month. Your special rate: 20% savings

Category	Cost	Details
VM Setup (one-time)	\$2,500	Machine provisioning + onboarding
VMs Monthly	\$6,000	3 Tier-2 machines (\$2,000 each)
Consulting Monthly	R200,000	~\$11,100 USD for 30 hours
Year 1 Total	~\$213,700 USD investment	

Agentic Rise: Global AI Startup Ecosystem

What Is Agentic Rise?

A movement to build sovereign, locally-manufactured AI infrastructure across emerging markets. Rather than exporting solutions from Silicon Valley, we're building a distributed manufacturing and innovation ecosystem where local partners become architects and manufacturers of their own AI future.

The Startup Community

500+ AI founders engaged through weekly coaching sessions, creating a global network building on Agentic Rise infrastructure.

Monday Sessions (09:00 CAT)

90-minute synchronous coaching with 50-100 founders

- ✓ Agent briefings
- ✓ Founder speed rounds
- ✓ Technical deep dives
- ✓ Networking

Friday Sessions (16:00 CAT)

90-minute deep dives with 20-30 founders per cohort

- ✓ Problem solving
- ✓ Expert coaching
- ✓ Peer mentoring
- ✓ Action planning

Manufacturing Hubs

Five distributed manufacturing facilities building AI hardware and solutions locally:

Hub	Timeline	Capacity	Focus
Cape Town	Sept 2026	50 units/month	Primary Africa hub, pharma systems
Nigeria	Sept 2026	40 units/month	West Africa operations
India	Q4 2026	60 units/month	South Asia distribution
Moscow	Aug 2026	30 units/month	Pharma & research center
	Q1 2027		Innovation center

Silicon
Valley

70 units/
month

Co-Investment Model

You don't buy AI infrastructure—you co-own manufacturing facilities.

Each partner invests \$250K-\$500K for equity stake in regional hub. Revenue from manufacturing operations flows to equity holders as dividends.

Investment

\$250K-\$500K equity stake

Ownership

Co-own manufacturing hub with other partners

Returns

Dividend distributions quarterly

Agentic Rise Revenue Model

Revenue Stream	Y1 Target	Year 2-3
Manufacturing	\$10M	\$30M+
Consulting	\$6.6M	\$20M+
Startup Ecosystem	\$1.5M	\$10M+

Licensing & IP	\$1.2M	\$5M+
Government Contracts	\$2.5M	\$8M+
TOTAL Y1	\$21.8M	\$73M+

How They Work Together

The Ecosystem Loop

AfricaBiz + Agentic Rise create a self-reinforcing flywheel:

- **Startup discovers Agentic Rise** → Joins Monday/Friday coaching community
- **Startup identifies AI infrastructure need** → AfricaBiz provides consulting + VMs
- **Startup grows, scales production** → Needs manufacturing capability
- **Startup co-invests in manufacturing hub** → Becomes equity partner
- **Startup scales regionally** → Refers other founders, earns commissions
- **Startup becomes manufacturing partner** → Dividend distributions + equity upside

Value Capture for AfricaBiz Partners

40% Revenue Share: All consulting and VM services revenue split 40% to you / 60% to StudEx

Manufacturing Equity: Co-own regional hubs, receive quarterly dividend distributions

Startup Commissions: 15% lifetime commission on startups you refer to ecosystem

Government Contracts: 35% markup on services delivered through government relationships

investor

relationships

(200+

VCs)

to

Agentic

Rise.

He's

the

bridge

between

innovation

and

manufacturing.

Chris's Weekly Commitment

Monday 09:00 CAT (05:00 PST)

Agent & OS sync, startup ecosystem review, capital pipeline

Friday 16:00 CAT (08:00 PST)

Deep dive on innovation, partnership opportunities, investment decisions

Monthly Gatherings

International meetings with all regional leads

Quarterly Objectives

- ✓ Identify 20+ AI startups for African market adaptation
- ✓ Facilitate 5+ co-investment discussions
- ✓ Coach 50+ founders in AI startup community
- ✓ Drive 3+ new enterprise partnerships
- ✓ Secure \$5M+ in co-investment commitments

Why Chris Matters: He makes the narrative credible to Silicon Valley VCs, African entrepreneurs, and government partners. He's proof that this isn't a one-way extraction model—it's genuine partnership.

Investment & Financial Returns

Year 1 Investment Breakdown

Category	Setup Cost	Monthly	Annual
AfricaBiz VMs	\$2,500	\$6,000	\$72,000
Consulting	—	R200,000	~\$133,200
TOTAL Y1 INVESTMENT	~\$213,700 USD		

Year 1 Revenue Returns

Direct Returns:

- ✓ 40% revenue share on consulting delivered to other clients: ~\$1M
- ✓ Manufacturing hub equity dividends (if investing \$300K): ~\$100K
- ✓ Startup referral commissions (15% on closed deals): ~\$50K

- ✓ Government contract markups (35%): ~\$200K

\$1.35M

Projected Year 1 Revenue for Active Partner

363%

Year 1 ROI (\$213.7K investment → \$1.35M return)

Compounding Growth (Years 2-3)

As the ecosystem scales:

- ✓ **Year 2:** 5 manufacturing hubs operational, 50+ enterprise partners → \$500K+ monthly revenue
 - ✓ **Year 3:** 15+ manufacturing hubs, 100+ partners → \$1.5M+ monthly revenue
 - ✓ **Equity upside:** Manufacturing hub equity values compound as production scales and new hubs open
-

Implementation Timeline

Phase 1: Foundation (August 1-31, 2026)

- **Week 1-2:** Office launches in Cape Town and Johannesburg operational; Moscow combined office ready
- **Week 3:** Infrastructure testing; first coaching session preparations
- **Week 4:** South Africa mobile data center construction underway; partner co-investment confirmations

Phase 2: Launch (September 2026)

- **Sept 1-15:** South Africa data center operational; first 50 founders in community; Nigeria site finalized
- **Sept 21-23:** Cape Town Tech Conference (800+ attendees); research lab grand opening; data center showcase
- **Sept 30:** 15+ enterprise partnerships; \$1.5M revenue run-rate; Nigeria data center online

Phase 3: Growth (October 2026+)

- **October 1:** Full operations across 3 data centers and 2 offices
- **October 31:** 35+ enterprise partnerships; \$350K+ MRR; manufacturing hubs at 60% capacity

Dec 31: 50+ partnerships; \$550K+ MRR; 200+ VM customers;
Q4 revenue targets met

Critical Decisions Required

By July 24:

Strategy review & questions finalized

By July 27:

Contract negotiation begins

By July 31:

Partnership agreement signed

Aug 1:

Go live

Automation & Skills Integration

Obsidian Vault Second Brain

All operations coordinated through an integrated knowledge system that auto-runs sophisticated skills:

Skill	Function	Output
Finance	Budget tracking, equity management, revenue reporting	Monthly P&L, equity distribution calculations
Ponytail	Meeting scheduling, action tracking, production workflows	Auto-scheduled sessions, tracked action items
GStack	Manufacturing CAD versioning, software updates, QA	Version control, deployment tracking
gBrain	Founder insight synthesis, pattern recognition	Weekly insights, trend reports, recommendations
Headroom	Founder session tracking, conversation history	Session notes, progress tracking, mentor matches
Agents		

Content generation,
technical support,
optimization

Automated workflows,
real-time
recommendations

Real-Time Dashboards

- ✓ Community health (founders, funding, dropouts)
 - ✓ Manufacturing metrics (production, quality, cost)
 - ✓ Partnership pipeline and revenue tracking
 - ✓ Government relationship status
 - ✓ Financial health (MRR, margins, cash runway)
-

Next Steps & Decision

Decision Process

1. **This Week (July 22-28):** Review this strategy with your team. Questions welcome.
2. **July 27:** Contract negotiation begins. Finance & legal terms discussed.
3. **July 31:** Partnership agreement signed. You're officially committed.
4. **August 1:** Go live. Operations launch. Teams begin work.

Partnership agreements

Financial terms

Questions to Discuss

- ✓ Manufacturing hub investment amount and equity stake preference
- ✓ Startup referral strategy and commission terms
- ✓ Government contract opportunities specific to your markets
- ✓ Team structure and staffing for consulting delivery
- ✓ Timeline flexibility based on your internal approvals

Your Decision

This is not just a service agreement. This is equity partnership in building African tech infrastructure.

You're not buying cloud services. You're co-investing in manufacturing facilities, equity in the ecosystem, and a seat at the table as we build sovereign AI infrastructure.

The question isn't "Can we afford this?"—it's "Can we afford NOT to do this?"
